

Vacuum glass lifter

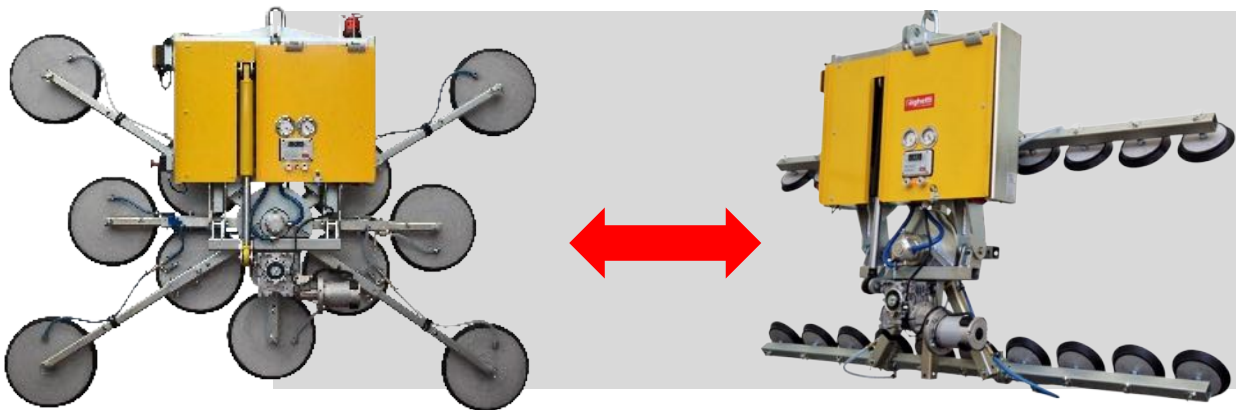

CURVED GLASS KIT

The Righetti curved glass kit is a useful optional to easily transform a standard Righetti glass vacuum lifter into a curved glass vacuum lifter.

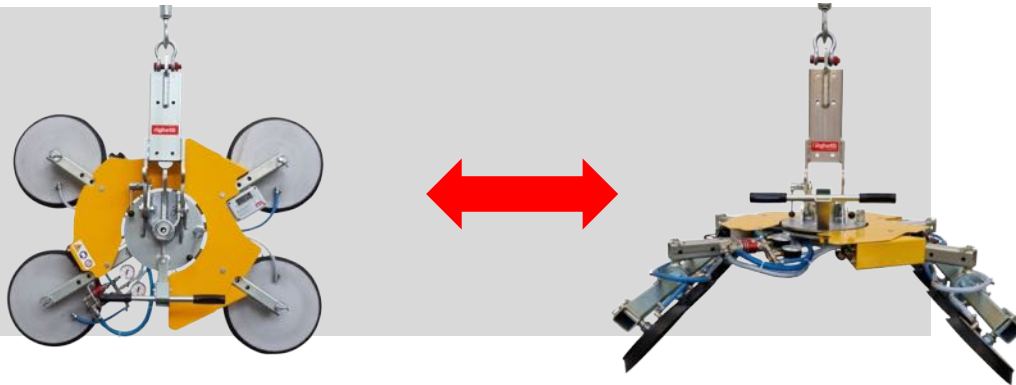

The kit can be mounted both on VB and GLE models.

The curved glass kit can feature 12, 16 or 20 suction pads, for a maximum lifting capacity of 600kg.

Example of GLE4+8 d4 transformed into a curved glass vacuum lifter:

Example of VB4 RCMBM transformed into a curved glass vacuum lifter:
