smart vacuum lifters

Model

FT10B 1800

 Kg max
1800

 Power supply
Batteries

FT10B1800 is a sheet metal vacuum lifter with **telescopic frame**. Being **its length adjustable** from 2761mm to 5007mm, it is the perfect vacuum lifter for handling sheet metal of variable dimensions such as 6000x2000mm, 4000x2000mm and 3000x1500mm. Moreover, FT10B1800 comes equipped with the possibility of **excluding arms** from suction by simply switching off a tap.

Its 10 suction pads, specific for sheet metal, are made of **special oil-resistant vulcanized rubber**, placed on five cross-arms to assure firm hold and support on even the longest sheet metal.

Horizontal lifting

10 suction pads d.310 mm

Safety devices

Capacity 1800 kg

Telescopic structure

Suitable for all sheet metal sizes

For standard sizes:

3 x 1,5 m ✓

4 x 2 m ✓

6 x 2,5 m ✓

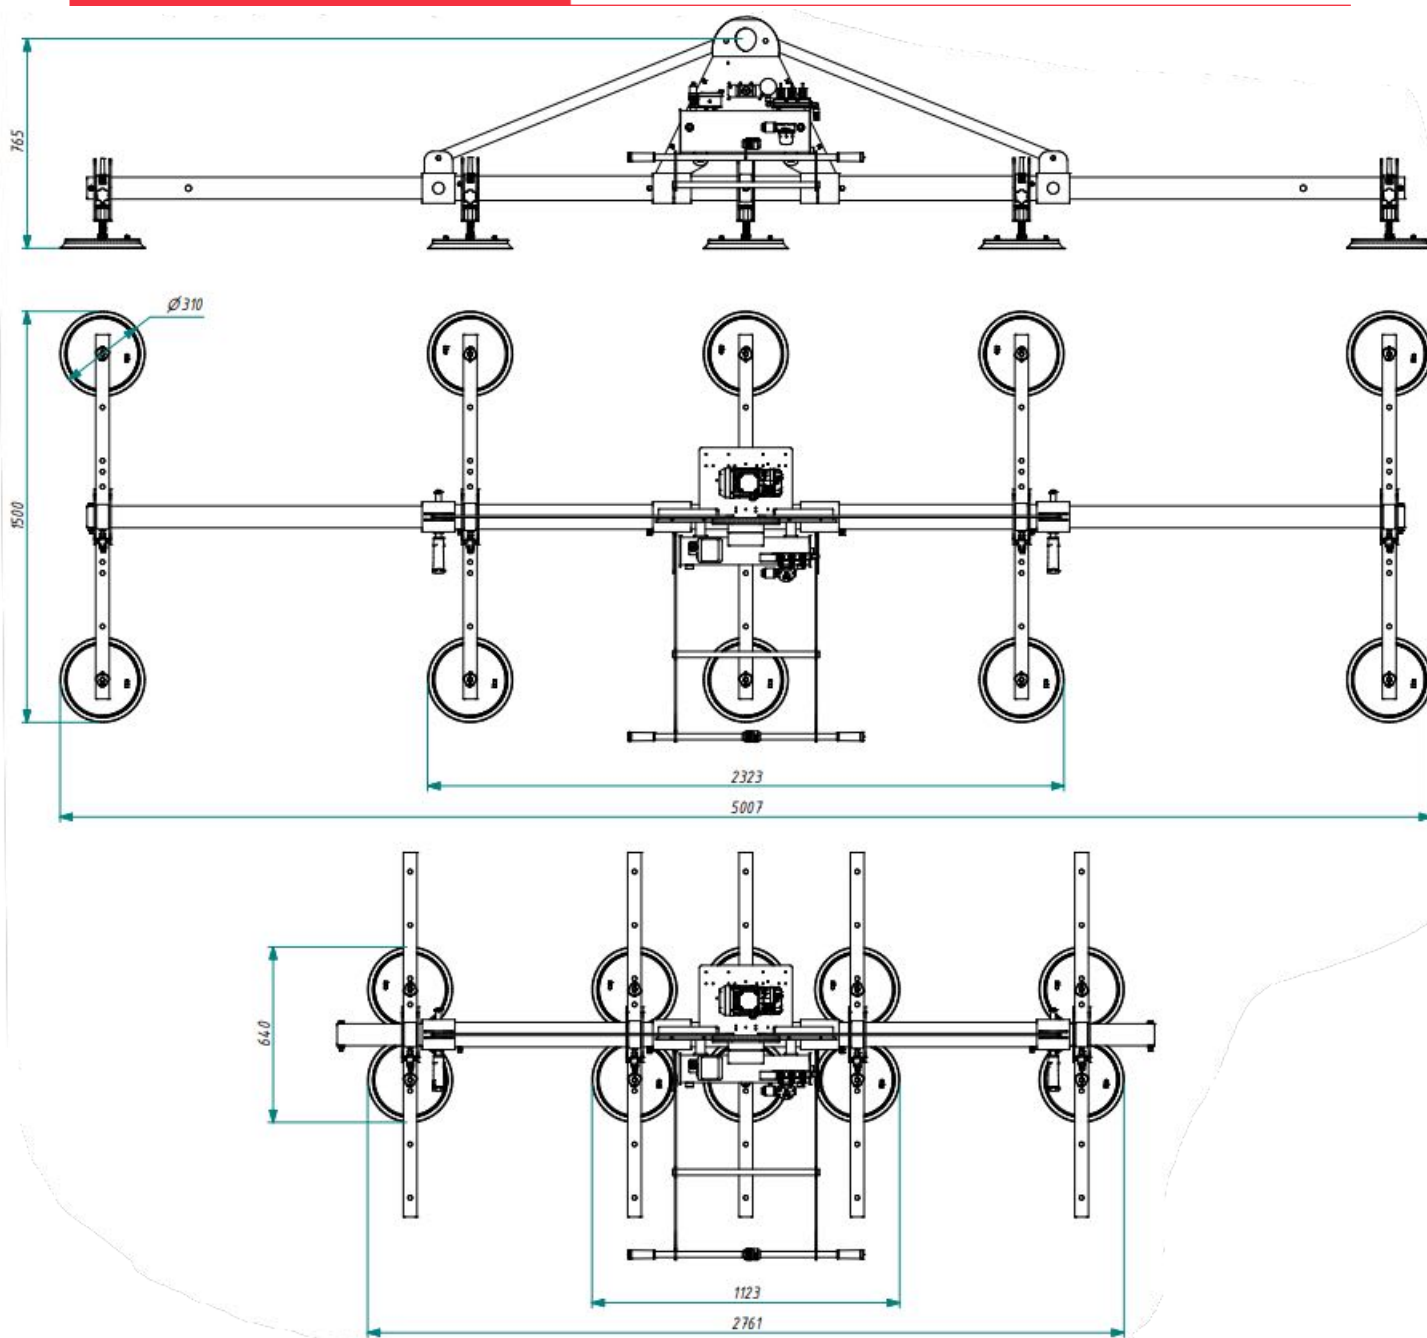

Technical specification

Application	Metal sheet, stainless steel, aluminium, plastic panels
Lifting capacity	1800 kg
Suction pads	Nr 10 oil-resistant vulcanized rubber 310 mm
Frame	Telescopic frame: extension max in open position mm 5007; min 2761 mm
Operating system	Battery operating system DC vacuum pump powered from on-board batteries high capacity re-chargeable batteries, battery status indicator economizer for reduction of the energy consumption
Vacuum system	Vacuum circuit with vacuum reservoir, non-return valve, vacuum filter
Safety system	Vacuum gauge with colored scale Audio visual low vacuum warning powered independently and with back up battery
Weight of lifter	250 Kg
Command	Suction and release by slide valve command with safety system

CE
