

Vacuum lifter

Series
M4B

The M4B is a series of Vacuum Lifters which contains a wide range of 4-plates models with capacities ranging from 500 kg to 2000 kg. The **M4B series is powered by** on board, rechargeable and long lasting **batteries**. The battery charger is included. The **manual tilting system** allows a vertical – horizontal movement and vice versa. The maximum capacity of the lift depends on the size of the suction plates.

It is equipped with an **audio-visual alarm** control unit that warns the operator of possible dangerous situations. The vacuum gauge with coloured scale allows constant control of the vacuum level reached. It is present a **filtering system** for dust and condensation.

Horizontal lifting

4 suction pads

Vertical lifting

Max capacity 2000 kg

Manual tilt 0-90°

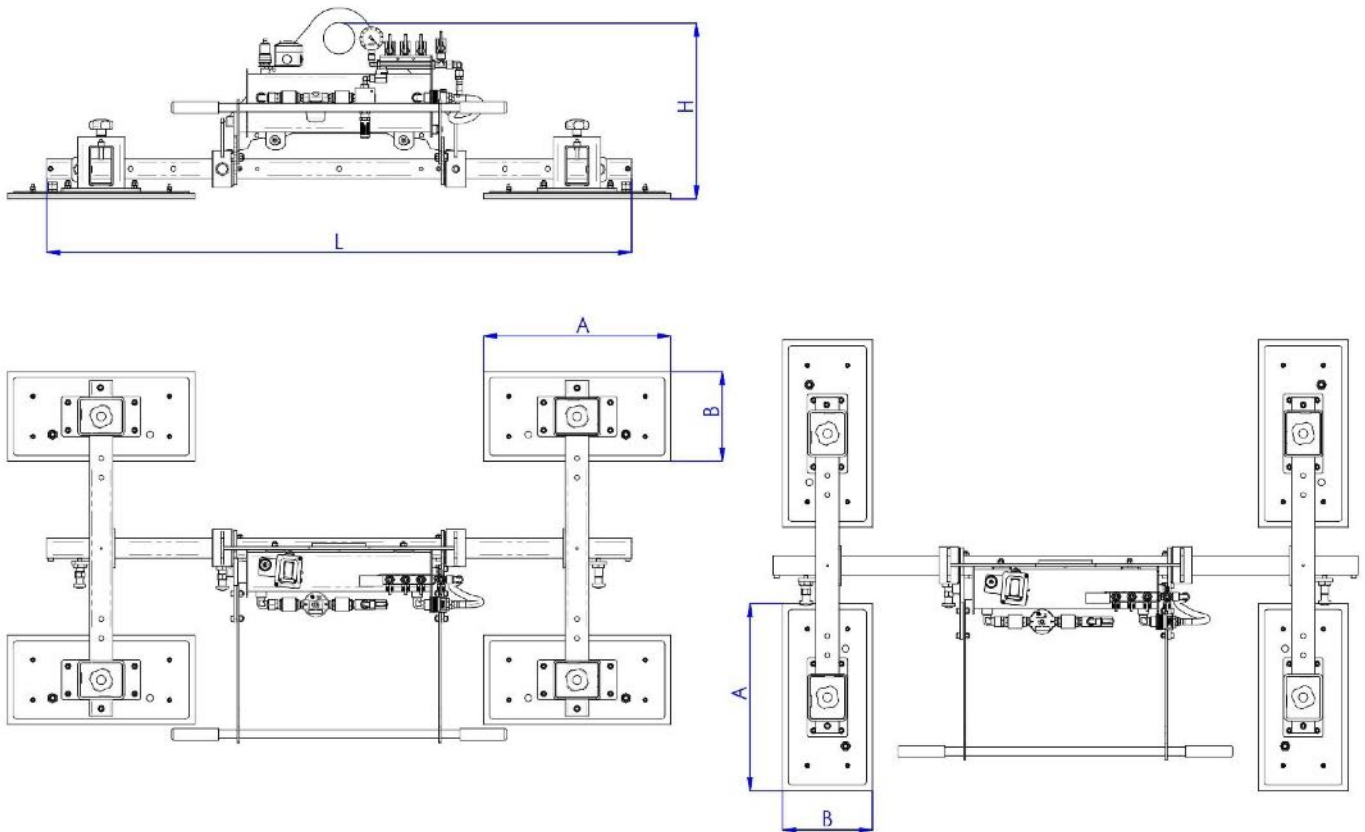

Safety devices

Technical specification

Application	Not porous materials
Lifting capacity	Models up to 2000 kg
Suction pads	Nr. 4 suction pads
Load movement	Manual tilt 0-90°
Operating system	DC vacuum pump powered from on-board batteries High capacity re-chargeable batteries Battery status indicator; Economizer for reduction of the energy consumption
Vacuum system	Vacuum circuit, complete of vacuum reserve and non return valve
Control	Manual valve on the lifter's frame Release of the load by dual action security command
Standard features	On-off double sliding valve with safety Audible and visual low vacuum warning devices Vacuum gauge with coloured scale, vacuum filter, non return valves
Optional	White gaskets Parking stand with wheels Holder for hoist command

Technical drawing

Series M4B

 **Kg max 2000**

Product code	Lifting capacity	A	B	H
M4B 500	500	480	230	630
M4B 1000	1000	480	330	630
M4B 1500	1500	630	330	630
M4B 2000	2000	630	430	630

*L = 1500mm. On request different lengths of the crossbeam.
