

Vacuum lifter

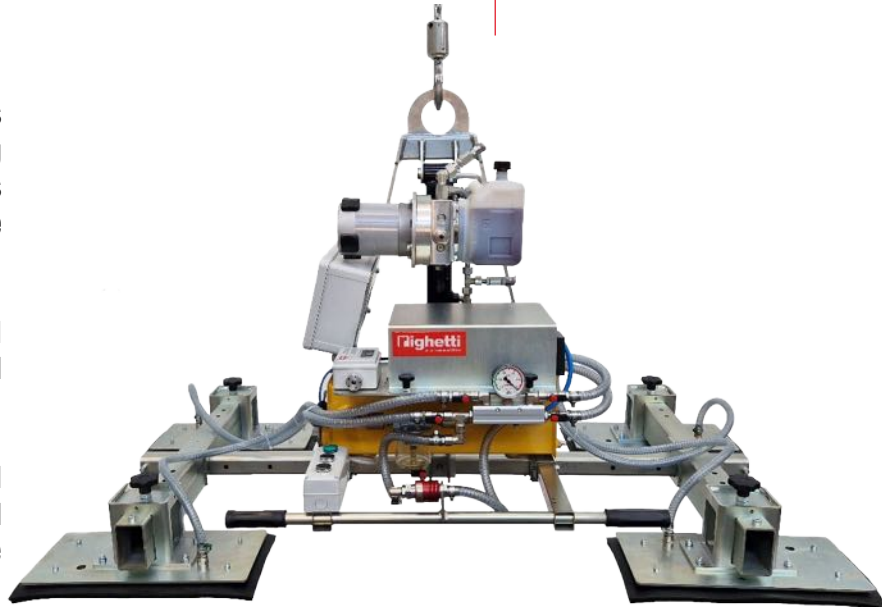

Series 04B

O4B series includes a wide range of vacuum lifters equipped with four suction pads, whose lifting capacity goes **from 500kg to 2000kg**. O4B series is powered by **high-capacity, rechargeable batteries** (battery charger is included).

The hydraulic tilting system allows the powered movement of the load from vertical to horizontal and viceversa.

The vacuum lifter is equipped with an **audiovisual alarm** that warns the worker about any potential dangers. The **filtering system** helps keeping the lifter protected by dust and water.

Horizontal lifting

✓ 4 suction pads

Vertical lifting

✓ Max capacity 2000 kg

Hydraulic tilt 0-90°

✓ Safety devices

made in
ITALY

Technical specification

Application	Stone slabs Not porous materials
Lifting capacity	Models up to 2000 kg
Suction pads	Nr. 4 suction pads
Load movement	Hydraulic tilt 0-90°
Operating system	DC vacuum pump powered from on-board batteries High-capacity re-chargeable batteries Battery status indicator; Economizer for reduction of the energy consumption
Vacuum system	Vacuum circuit, complete with vacuum reserve and non-return valve
Control	Manual valve on the lifter's frame Release of the load by dual action security command
Standard features	On-off double sliding valve with safety Audible and visual low vacuum warning devices Vacuum gauge with coloured scale, vacuum filter, non return valves
Optional	White gaskets Parking stand with wheels Holder for hoist command

Technical drawings

04B series

 **Kg max 2000**

Product code	Lifting capacity	A	B
04B 500	500	480	230
04B 1000	1000	480	330
04B 1500	1500	630	330
04B 2000	2000	630	430

*L = 1500mm. On request, different lengths of the crossbeam are available.
