PICCOLA

The model PICCOLA is a tiny and strong vacuum lifter, with one suction pad, very useful to handle and lift stones and marble with limited weight and dimension. **PICCOLA is really small, convenient and handy, it only weights 11kg.**

It's available in three different configurations:

- PICCOLA100: lifting capacity 100kg, with suction pad 580x180mm
- PICCOLA125: lifting capacity 125kg, with suction pad 480x230mm
- PICCOLA250: lifting capacity 250kg, with suction pad 480x330mm

This vacuum lifter is powered by compressed air.

The **manual tilting system** allows a vertical – horizontal movement of the load and vice versa. Equipped with an **audio-visual alarm** control unit that warns the operator about possible dangerous situations. The vacuum gauge with coloured scale allows constant control of the vacuum level reached. Present a **filtering system** for dust and condensation.

AIR Power supply
Compressed Air

Horizontal lifting

✓ 1 suction pad

Vertical lifting

✓ Max capacity 250 kg

Manual tilt 0-90°

✓ Safety devices

Technical specification

Application	Not breathable materials
Lifting capacity	Models up to 250 kg
Suction pads	Nr. 1 suction pad
Load movement	Manual tilt 0-90°
Operating system	Compressed air
Vacuum system	Vacuum circuit, complete of vacuum reserve and non return valve
Control	Manual valve on the lifter's frame Release of the load by dual action security command
Standard features	On-off double sliding valve with safety Audible and visual low vacuum warning devices Vacuum gauge with coloured scale Vacuum filter, non return valves, vacuum tank
Optional	White gaskets
