

Righetti

smart vacuum lifters

Model

VA1-FV

Vacuum glass lifter

AIR Power supply
Compressed Air

VA1-FV is part of a range of vacuum lifters with **vertical fixed structure** for lifting and handling glass slabs in production area. This lifter has just one round suction pad d. 390mm, it's compressed air powered with lifting capacity 150kg.

It is equipped with an **audio-visual alarm** control unit that warns the operator of possible dangerous situations. The vacuum gauge with coloured scale allows constant control of the vacuum level reached. Present a **filtering system** for dust and condensation.

Fixed frame in vertical

Capacity max 150kg

Pneumatic operating system

Safety devices

1 suction pad d. 390 mm

Indoor use

CE

made in
ITALY

Technical specification

Application	Glass panels
Lifting capacity	Max 150 kg
Suction pads	No. 1 round suction pad diameter 390 mm
Pad spread	390 mm
Load movement	Fixed frame in vertical position
Operating system	Compressed air operating system
Vacuum system	Single vacuum circuit
Weight of lifter	Kg 15
Control	Manual on off valve on the lifter's frame Release of the load by dual action security command
Standard features	Audible and visual low vacuum warning devices Vacuum gauge Battery charger for alarm system Vacuum filter
