

Model

VA2 RCM

Vacuum glass lifter

AIR Power supply
Compressed Air

The model VA2 RCM is a **vacuum glass lifter specific for indoor use**, with two suction pads d. 310 mm, compressed air powered with lifting capacity up to 200Kg. The pads are replaceable along the arms in different positions. The lifter features continue **manual 360° rotation, with possibility of automatic locking every 90°**. It is quipped with an audio-visual alarm unit that warns the operator of possible dangerous situations. The vacuum gauge with coloured scale allows constant control of the vacuum level reached. It features a **filtering system** for dust and condensation. The standard beam is L 1500mm, on request we can produce it with different lengths. This model is also available with suction pads d. 390 mm and lifting capacity 300kg (VA2 RCM d4).

Technical specification

Application	Glass panels
Lifting capacity	Max 200 kg
Suction pads	No. 2 round suction pads diameter 310 mm Lipped pads with safety ring
Pad spread	Various pads configurations
Load movement	360° manual rotation, with possibility of automatic locking every 90°
Operating system	Compressed air
Vacuum system	Single vacuum circuit with vacuum reserve and non return valve
Weight of lifter	Kg 53
Control	Manual on off valve on the lifter's frame Release of the load by dual action security command
Standard features	Audible and visual low vacuum warning devices Vacuum gauge, Vacuum filter Adjustable pads position

Indoor use

Safety devices

Manual rotation 360°
