

Righetti

smart vacuum lifters

Curved glass vacuum lifter

Model
VB4C

 Kg max
400

 Power supply
Batteries

The VB4C vacuum lifter is a special version of the classic VB4, suitable for curved glass up to 400kg. It features **manual tilt** and **manual 360° rotation**.

Its special rectangular vacuum pads mm 170x930, allow to lift both concave and convex glasses. VB4C is a specific vacuum glass lifter for construction site use, it's powered by two on-board batteries and it features **dual vacuum circuit** according to EN13155 standard.

Manual tilt 0-90°

Capacity max 400kg

Manual continuous rotation 360°

Battery powered

4 rectangular vacuum pads

Dual vacuum circuit built to EN13155 standard

CE

made in
ITALY

Technical drawings

Technical specification

Application	Curved glass panels
Lifting capacity	Max 400 kg
Suction pads	No. 4 rectangular suction pads mm 170x930
Pad spread	Repositionable pads in two positions
Load movement	Continuous 360-degree rotation, with possibility of automatic locking at each 90° 90-degree tilt, with possibility of automatic locking in upright and flat position
Operating system	DC vacuum pump powered from on-board batteries High-capacity re-chargeable batteries Battery status indicator Economizer for reduction of the energy consumption
Vacuum system	2 independent vacuum circuits, each vacuum circuit with vacuum reserve and non return valve
Weight of lifter	Kg 98
Control	Manual on off valve on the lifter's frame Release of the load by dual action security command Remote control as optional
Standard features	Audible and visual low vacuum warning devices Vacuum gauge for each vacuum circuit Battery charger 240 Volt Vacuum filter
